

Step to setup telegram in tester maker EA :-

1. Go to :- Telegram and search channel name - "@BotFather"

BotFather,

I can help you create and manage Telegram bots. If you're new to the Bot API, please see the manual (<https://core.telegram.org/bots>).

You can control me by sending these commands:

/newbot - create a new bot

/mybots - edit your bots [beta]

Edit Bots

/setname - change a bot's name

/setdescription - change bot description

/setabouttext - change bot about info

/setuserpic - change bot profile photo

/setcommands - change the list of commands

/deletebot - delete a bot

Bot Settings

/token - generate authorization token

/revoke - revoke bot access token

/setinline - toggle inline mode (<https://core.telegram.org/bots/inline>)

/setinlinegeo - toggle inline location requests (<https://core.telegram.org/bots/inline#location-based-results>)

/setinlinefeedback - change inline feedback (<https://core.telegram.org/bots/inline#collecting-feedback>) settings

/setjoingroups - can your bot be added to groups?

/setprivacy - toggle privacy mode (<https://core.telegram.org/bots#privacy-mode>) in groups

Games

/mygames - edit your games (<https://core.telegram.org/bots/games>) [beta]

/newgame - create a new game (<https://core.telegram.org/bots/games>)

/listgames - get a list of your games

/editgame - edit a game

/deletegame - delete an existing game

2. Open channel , Type "/newbot"

3. Type Bot name example (make bot name end with bot), "somethingtesterperformbot"

4. After creating Bot , we get "Access Token" - Like ,
"2086919174:AAE3u3koJA_rqovFHZljKYlulkcXi3T2MWU"

5. Paste Access Token on EA

6 , Now we need to get channel Id ->

<https://api.telegram.org/botAccessToken/getUpdates>

7 , Go to your channel “Type some message on there” and hit your api --> As above mentioned on 5th step -

<https://api.telegram.org/botAccessToken/getUpdates>

8. Before Follow , 7th step you should , add the bot username on that channel , and send message on it , then you get chat id like “-39862827635”

Activate Windows
Go to PC settings to activate Windows.

Note : - First Attach “Tester_making” indicator, Then attach “Tester_Making_EA” on the Chart.
